2	Reclamation Support: MRp2, MRc5 (MRc6 for Commercial Interior Standards)	Establish waste diversion goals by identifying at least five materials targeted for diversion. Divert Construction Materials by 50% of weight or Volume for 1 point. Divert 75% for two points.	Miliken Carpet Take Back Program enables 100% of carpet to be diverted from landfill. The Re-Vision program enables used carpet tile to be recycled into new tile backing and converted to production energy.	http://www.miliken.com/en/eb/sustainability/Pages/End-of-Life.aspx	Yes	Yes	Yes	No	No	Yes
1	LCA/EPD: MRc2 (option 1) (MRc3 for Commercial Interior Standards)	Use at least 20 different permanently installed products sourced from at least five different manufacturers that meet one of the disclosure criteria Products with only LCA = 1/4 product value Products with Industry EPD = 1/2 product value Product with Product Specific EPD = Full Product value	Most Miliken products are supplied with Product Specific EPD so contribute to the full value of the product. EPDs can be found on Miliken's website	http://www.miliken.com/en/eb/sustainability/Pages/Certificates.aspx	Yes	Yes	Yes	Yes	Yes	No
1	LCA MRc2 (option 2) (MRc3 for Commercial Interior Standards)	Third party certified products that demonstrate impact reduction below industry average in at least three of the following categories (GWP, ODP, Acidification, Eutrophication, Ozone creation, Depletion of nonrenewable energy resources) products that meet criteria are valued at 100% of cost of the product. Total building project must account for 50% of total cost from products that achieve this credit. (note: if products meet the three categorical improvement and are extracted, manufactured and purchased within 100 miles then they are valued at 200%)	Most Miliken products have reduced impact compared to industry generic rating for Carpet tile, as supported by BREEAM Life Cycle analysis	http://www.miliken.com/en/eb/sustainability/Pages/Certificates.aspx	Yes	Yes	No	No (Industry generic)	No (Industry generic)	No
1	Sustainability Report: MRc1 (option 1) (MRc4 for Commercial Interior Standards)	Use at least 20 different permanently installed products from at least five different manufacturers that have publicly released a report from their raw material suppliers which include raw material supplier extraction locations, a commitment to long-term ecologically responsible land use, a commitment to reducing environmental harms from extraction and/or manufacturing processes, and a commitment to meeting applicable standards or programs voluntarily that address responsible sourcing criteria Self Declared Reports = 1/2 Product Value Third-party verified (GRI, ISO26000, U. N Global Compact, OECD) = Full Product Value	Miliken produce an annual sustainability report in line with GRI reporting index - 1 full credit. Available on Miliken's website	http://www.miliken.com/en/eb/sustainability/Documents/IFCD-SustainabilityReport-2016.pdf	Yes	Yes	Yes	Yes	Yes	Yes
1	EPP Program: MRc3 (option 2a) (MRc4 for Commercial Interior Standards)	Products purchased from a manufacturer (producer) that participates in an extended producer responsibility program, valued at 50% of cost, to gain the point project must spec this criteria for 50% total cost of all permanently installed products	Carpet Take Back Program provides extended producer responsibility	http://www.miliken.com/en/eb/sustainability/Pages/End-of-Life.aspx	Yes	Yes	Yes	No	No	Yes
	Recycled Content: MRc3 (option 2a) (MRc4 for Commercial Interior Standards)	Recycled content is the sum of postconsumer recycled content plus one-half the preconsumer recycled content, based on cost. Products meeting recycled content criteria are valued at 100% of their cost for the purposes of credit achievement calculation, valued at 100% of cost, valued at 100% of cost, to gain the point project must spec this criteria for 50% total cost of all permanently installed products.	Miliken carpets are manufactured with upto 70% recycled content including use of innovative backing materials and yarns with a mix of pre & post consumer waste. Recycled content by product can be found on line in our Environmental summary Sheet.pdf	http://www.miliken.com/en/eb/sustainability/Documents/Environmental-Summary-Sheet.pdf	Yes	Yes	Yes	No	No	Yes
	Public Inventory of Ingredients: MRc4 (option 1a) (MRc5 for Commercial Interior Standards)	Use at least 20 different permanently installed products from at least five different manufacturers that use any of the following programs to demonstrate the chemical inventory of the product to at least 0.1% (1000 ppm). Public Inventory Building project must select 20 materials from 5 different suppliers	Ingredients are listed on Declare labels for most products. The appropriate Label, based on yarn and backing type can be found on line	http://www.miliken.com/en/eb/sustainability/Documents/Environmental-Summary-Sheet.pdf	Yes (in application)	No	Yes	Yes	Yes	No
1	HPD: MRc4 (option 1b) (MRc5 for Commercial Interior Standards)	Use at least 20 different permanently installed products from at least five different manufacturers that use any of the following programs to demonstrate the chemical inventory of the product to at least 0.1% (1000 ppm) -HPD	Miliken have completed Health Product Declarations which are available on request	http://www.miliken.com/en/eb/sustainability/Documents/IFCD-SustainabilityReport-2016.pdf	Yes	Yes	Yes	Yes	Yes	Yes
1	Verified Supplier Engagement: MRc4 (option 3) (MRc5 for Commercial Interior Standards)	Are sourced from product manufacturers who engage in validated and robust safety, health, hazard, and risk programs which at a minimum document at least 99% (by weight) of the ingredients AND are sourced from product manufacturers with independent third party verification of their supply chain. Products meeting Option 3 criteria are valued at 100% of their cost for the purposes of credit achievement calculation. In total, the project must identified materials that make up at least 25% by cost of permanently installed product for LEED	Miliken products are manufactured in ISO14001 certified facility. Miliken are working on a third party verified supplier program BES6000 in addition to the current ethical code of supply.	http://www.miliken.com/en/eb/sustainability/Documents/Europec2016G14001.pdf	Yes	Yes	Yes	No	No	No
1	Low Emitting Materials: EQc2	Flooring must meet LEED's "General Emission and Content Requirements" All flooring must meet this standard for project to gain 1 point. Wet applied adhesives must meet General "Emission and Content Requirements" and "Additional VOC Content requirements for wet-applied products." General Emissions And Content requirements generally follow "California Department of Public Health (CDPH) Standard Method v1.1-2010. Third-party certifications that are compliant with the CDPH and recognized by LEED can give credits.	For projects outside North America, regional VOC certification standards are accepted alternatives including GUT certification. Tractionback emission free installation method / compliant adhesives available.	http://www.miliken.com/en/eb/sustainability/Pages/Certificates.aspx	Yes	Yes	Yes	Yes	Yes	No
1	Third Party Multiattribute Certification: Pilot Credit: Environmentally preferable interior finishes and furnishings	Use interior finishes and furnishings from manufacturers who have validated multiple environmental attributes relevant to the product via independent third party certifications and that have publicly disclosed the product attributes on which the certification has been granted. Use at least 5 different third party certified products which account for at least 50% of the total interior finishes and furnishing materials by cost.	Miliken Carpets are certified to GUT for Indoor Air Quality. Compliance to banned pollutants and Environmental responsible manufacture.	http://www.miliken.com/en/eb/sustainability/Pages/Certificates.aspx	Yes	Yes	Yes	No	No	No
